

Peanuts® Birthday Graph Project

Supplies Needed

1. Peanuts® Birthday Bulletin Board Set ([Eureka Item #847005](#))
2. Peanuts® Birthday Assorted Paper Cut-Outs ([Eureka Item #841267](#))
3. Peanuts® Birthday Deco Trim® ([Eureka Item #845204](#))
4. Peanuts® Birthday Computer Paper ([Eureka Item #812116](#))
5. Snoopy pose of your choice, available in a variety of Peanuts® Bulletin Board Sets that can be found here: [Peanuts® Bulletin Board Sets](#)
6. Extra Wide Silver Holographic Foil Specialty Deco Trim® ([Eureka Item #845052](#))
7. Stapler

(See instructions on next page.)

Instructions

Step 1: Staple Extra Wide Silver Holographic Foil Specialty Deco Trim® to the top edge of the bulletin board with the scalloped side up.

Step 2: Staple Extra Wide Silver Holographic Foil Specialty Deco Trim® to the bottom edge of the bulletin board with the scalloped side down.

Step 3: Staple Peanuts® Birthday Deco Trim® to the top and bottom edges of the bulletin board, layering it over the Extra Wide Silver Holographic Specialty Deco Trim®.

Step 4: From the Peanuts® Birthday Bulletin Board Set, staple the cakes that correspond with the months you wish to include in your birthday graph onto the bulletin board in a straight vertical line.

Step 5: Also from the Peanuts® Birthday Bulletin Board Set, write the names of each student that celebrates a birthday in the months you are including on a separate candle. For clarity in your graph, it is recommended that you use one color for each month.

Step 6: Staple the candles for each month in a straight horizontal line next to the corresponding cake.

Step 7: Staple your Snoopy pose to your bulletin board.

Step 8: Write information about graphs that you'd like to reinforce through your bulletin board on sheets of the Peanuts® Birthday Computer. Then, staple these to your bulletin board.

Step 9: Write questions relating to graphs on the Peanuts® Birthday Paper Cut-Outs. Staple these paper cut-outs and any blank ones you may want to fill in later to your bulletin board, filling in any remaining space in your design.
